

BLACK FOX
PHILANTHROPY LLC

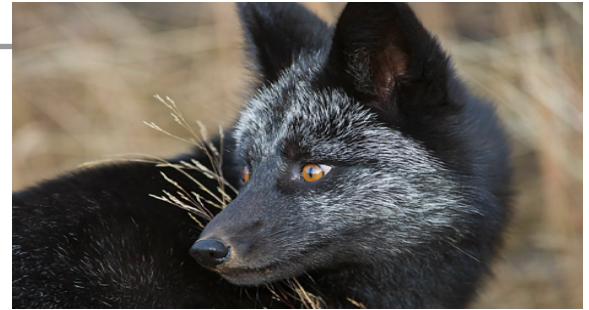

Your Mission is Our Mission. Our Team is Your Team.

COMPREHENSIVE GRANT SUITE

Objective

In order to apply for funding opportunities, your organization will need to have strong, compelling, and rigorous materials to submit in the form of grants and Letters of Inquiry (LOIs). Black Fox Philanthropy's grant suite helps your organization pursue numerous funding opportunities by producing a high quality, customizable grant template, as well as by writing a set of grants and LOIs on your behalf—enabling your team to pursue funding opportunities immediately while building capacity for the future.

Deliverable

Our professional grant writers work with your organization to create one comprehensive grant template that includes compelling language about all of your program areas and tells the story of your organization in a funder-centric way. This template can be adapted and used for all future grant submissions, and contains the right information to craft compelling letters of inquiry as well. We include a cover letter that sets your organization apart from others with a similar mission and clearly articulates why funding you is a worthwhile investment.

But we go beyond simply producing a template—Black Fox Philanthropy team members will leverage the template to customize two (2) grant applications, and write three (3) Letters of Inquiry. The grant template will be delivered to your team within 4-6 weeks of the initial intake conversation and the grants and LOIs can be written based on your needs anytime within three months. By the end of the engagement, you will have advanced your funding process with five different foundations, and will have a template and set of example grants/LOIs that can be used for all future submissions.

Standard Time and Financial Investment: Three-month engagement; \$6,000*

**Bespoke scopes available based on the unique needs of our clients*

Note: After the completion of this engagement, Black Fox Philanthropy can continue to support your organization with additional grant submissions leveraging the grant template. Fee varies based upon complexity; however, the investment range is typically between \$400 - \$900.

Black Fox Philanthropy is proud to be woman-owned and a certified B Corporation.
